Threatened N. Y. Transit Strike Is Called Off

(By The Associated Press)

The threat of a city-wide transit walkout in New York was called off today and a seven-day strike of 700 city employes of Houston, Tex., was settled.

After a conference with C I O President Philip Murray, New York's mayor, William O'Dwyer, said the C I O Transport Workers union had withdrawn its demand of designation as sole collective bargaining agent for transit workers.

The strike had been threatened to take place after midnight.

Houston settlement came after thousands of A F L workers declared a sympathy "holiday," march to the city hall in a demonstration and forced a shutdown of some of the community's normal services.

A two-day bread strike ended in Detroit but a milk strike, shutting off deliveries to 750,000 Detroiters, went into its sixth day.

In Philadelphia, Acting Sheriff William J. Morrow said there would be no attempt by police to interfere in event of continued mass picketing of the strike-bound General Electric company plant, following yesterday's demonstration by about 1400 CIO pickets who defied a common pleas court injunction outlawing mass picketing. Morrow said the "whole issue" of court-banned mass picketing will be settled at meeting today.

The walkout of 3400 employes of the Duquesne Light company in Pittsburgh, which threatened a blackout in the Pennsylvania metropolis and surrounding area, was averted shortly before the strike deadline at midnight.

General Motors and CIO United Auto Workers negotiators met to continue discussion of issues in the 96-day-old strike by 175,000 employes at General Motors plants.

Ten Bills Introduced as Solons Seek to Speed Session

BOISE, Feb. 26 (AP)—Ten bills tumbled into the 28th legislature's special session today as the law makers met in committee and caucus rooms threshing out one of the session's major problems—a solution to the state's critical shortage of teachers.

There seemed general agreement the legislature would go to work later today or tomorrow on a teacher's retirement plan. Senate democrats after a caucus reported they agreed on retirement. Republicans, who dominate the two chambers, said they would favor a retirement plan.

House republicans, controlling the lower chamber by a 30-28 count, caucused for more than an hour and a half this morning on a teachers retirement system. They were studying a bill proposed by the Idaho Education association.

Democrats in the house caucused last night, but leaders said there was no agreement on the retirement plan. There was unanimity, Representative A. R. McCabe (Dem., Benewah), said on veterans affairs legislation.

Creation of a six member nonpartisan commission to direct the operation of Idaho's charitable institutions was proposed in a bill introduced in the house.

It was among six bills introduced in the house. Others would:

Raise state income tax exemptions from the present $700 for single persons to $1,000, and from $1,500 to $2,000 for a family head.

Appropriate $500 to the lieutenant governor's office.

Appropriate $7470 to the department of finance for administration of the unfair sales law.

The senate approved a house bill appropriating $25,000 for the special session's expenses.

Bills introduced in the senate proposed:

An appropriation of $8025 to the state bureau of aeronautics for the employment of personnel to inspect airfield sites in connection with proposed construction.

Appropriations of $76,579 to the state tax commission to enable it to continue operations and enforce the cigarette tax law.

Revision of a state statute to enable World war II veterans to serve as legal counsel for persons charged with insanity.

Comments from legislators today indicated a desire by some to trim the requests in the governor's message and adjourn the session long before the maximum of 20 days.

These comments included:

Representative Willias C. Moffatt, speaker of the house: at least half the proposals are not emergency.

Representative P. D. McArthur (Dem., Fremont): Fine, but I'm sure we are going to cut down his requests considerably.

Representative Joe J. Lundburg (Rep., Bonneville): We won't be able to put over all that the governor asked.

Senator W. R. Humphreys (Dem., Fremont): Everything in the message was important—there isn't a trivial subject in there.

Representative Harry F. Jones (Rep., Lincoln): There are some unnecessary requests in the message.

Senator Nellie Cline Steenson (Dem., Bannock): Governor Williams left the door open where we can help the schools. He was not as specific as he might have been. I don't know if we'll be able to handle all of the matters. The teachers retirement system is the main thing I'm here for.

Good Trick—With Mirrors

Strange new glass in photo above serves both as mirror and window, reflecting the face of the girl at left, yet permitting clear view of girl at right. Trick glass was achieved through new reflection control methods developed by Southbridge, Mass., optical manufacturer to heighten efficiency of radar and military optical instruments.

Goering Still Fights for Life

By DEWITT MACKENZIE

NUERNBERG, Germany, Feb. 26.—Your correspondent has run ...o Reichmarshal Hermann Goering here and is mighty glad to see him again. Because this time he is where he belongs—in the dock of ...ied court on the charge of ...es against humanity.

...Hitler's crown prince is looking better than I've ever seen him. ...has lost little if any of the self ...fidence and ego he possessed ...en I saw him in action in Munich 1938, and later in Berlin, as he ...t his chief were putting the fin...ng touches on their conspiracy ...ainst mankind.

...It isn't surprising to see Goering ...iling for life with a grin and a ...r exhibition of nonchalance, for ...rmann has never been accused of ...aking physical courage. He won ...spurs in the first World war ...h his spectacular showmanship ...d daring.

...Hitler's runnerup is making a ...t of it in court. Of course he ...ows very well his chances of ...aping death are almost nil. How...er, he's sticking to the old adage ...at while there's life there's hope—...d anyway, it pleases his vanity to ...ract attention in a courtroom ...om the nationals of many countries. ...He's the central figure in the trial. ...ering's penchant for theatricals ...s given a lot of folks the idea that ...e's just a buffoon, but don't get ...ed mistaken notion. He's smart ...d his organizing ability and driv...g force had much to do with put...g the reich on such a powerful ...d footing that Hitler almost con...ered Europe.

The National Whirligig

By RAY TUCKER

WASHINGTON, Feb. 26—The normally mild and kindly President Truman has amazed numerous ...ARSH White House visitors urging larger contributions of ...d to Europe, especially to the ...ted and enemy peoples, by his ...difference and impatience toward ...e problem.

The White House apparently ...eels that some Capitol Hill critics ...im to make political whoopee out ...f the question, with the votes of ...the German-Polish-Balkan-Slav-...alian blocs as the ballot-box ...rize. They, in turn, regard his re...ent program for increasing wheat ...shipments as an attempt to strip ...them of their thunder, although ...they insist that he still allows par...an considerations to block any ...real relief to the starving.

...Unfortunately, the president's re...tirement against the clamorous ...ed-for-central-Europe faction in ...e senate has led him to deal ...mptly and harshly with other ...legations inspired only by human...rian motives.

* * *

...ROMISE Mr. Truman showed, for ...him, a surprising out...t of indignation when represen...ves of 48 national organizations ...aled to him to appoint an Ameri... relief mission to coordinate all ...vate and public activities on be...f of the distressed peoples of Eu...

...Mrs. Dwight W. Morrow, of New ...ey, widow of the late senator-...bassador, headed the delegation. ...ong the organizations represented ...e the Federal Counceil of Church... the General Federation of Wo...'s Clubs, the American Federa... of Labor, the C.I.O. and the ...mers Union.

...The president exhibited annoyance ...n Mrs. Morrow spoke of "starva... in Europe." He referred to some ...Europeans who didn't do anything ...themselves, but just sat around ...waited for the birds to feed ...em."

...When she mentioned "our" prom... to aid them after the conflict, ...e interrupted.

..."We didn't promise them anything."

..."But" she reminded him, "President Roosevelt said—"

..."Well" he snapped, "I didn't ...romise anything."

...When the A. F. of L. spokesman intervened to support Morrow with his own findings ...questions, the president conceded that there was a "job to be done in Europe."

...Those "facts" to be continued.

(Continued on Page Two)

French Order Border With Spain Closed

PARIS, Feb. 26. (AP)—The French government today ordered the frontier with Franco Spain closed, effective at midnight, March 1, declaring the present situation in Spain constitutes a "danger for international security."

The French cabinet's action was taken after a lengthy explanation of the situation by Foreign Minister Georges Bidault. The tension between the two countries has been growing for a week.

Last Friday the consultative assembly overwhelmingly voted a protest over the execution of 10 Spanish republicans by the Spanish government. Madrid dispatches last night said 37 persons were convicted by a court martial at Alcala de Henares on charges of attempting to reorganize the socialist party in Spain and three of them were given 12-year prison terms.

The communique issued after today's cabinet meeting said the ministers had "decided to again inform the governments of the United States and Great Britain that the present situation in Spain constitutes a danger for international security."

Early in December France asked the United States and Britain to confer with her on the possibility of breaking off relations with Generalissimo Francisco Franco's regime.

Decline Comment

LONDON, Feb. 26 (AP)—The British foreign office declined comment today on the French action closing the Spanish border. An informed source said, however, that the action was not in line with British policy toward the Franco regime.

First Crocuses Are Reported

Snow still lies deep in Wallace, but spring isn't far off.

The first crocuses of the year have been reported.

Franklin Pfirman, who normally reports the first flowers of the year, said his flowers blossomed Sunday, six days later than last year. It is the latest they have bloomed since before 1943.

Mrs. J. H. Burns, Mullan avenue, also reported her crocuses in bloom.

POLAND KEEPS CENSORS

LONDON, Feb. 26 (AP)—An Associated Press survey shows that Poland is the only country in the Soviet zone of influence, extending from Russia to Germany, which still maintains a formal, officially-admitted news censorship.

BELGIAN WAR BRIDES

BRUSSELS, Feb. 26 (AP)—Armed with visas and safety pins, the first contingent of 180 G I Belgian brides and their rehildren prepared today to leave for Le Havre, where they will board the liner General Goethals for the journey to the United States.

Meat Prices Will Be Increased

WASHINGTON, Feb. 26 (AP)—The government today authorized increases in the ceiling prices in the meat packing industry and forecast that retail prices will rise about 1½ per cent.

Stabilization Director Chester Bowles took the action after the wage stabilization board ordered Secretary of Agriculture Anderson to put into effect immediately a general pay boost of 16 cents an hour for packing house workers.

The wage hike previously had been recommended by a government fact-finding panel.

Death Claims A. B. Livingston

Alexander Bruce Livingston, 82, veteran district prospector, died at 8:40 last night in a local hospital following a long illness.

Livingston and a brother, John, came to this district 63 years ago, and except for some time spent prospecting in the Clearwater district spent his life prospecting in the Placer creek district south of Wallace. Another brother, Roderick, who died here in December, 1944, joined him here later and the two brothers were interested at one time in the Vienna International, Spokane Tunnel and Castle Rock mining properties, all in the Placer creek district. These interests were sold last year.

He was born in Delaware county, Iowa.

He is survived by a sister, Miss Euphemia Livingston, Wallace, and a brother, Archie, Rodman, Ia., in addition to a number of nieces and nephews.

Funeral services will be held at 11 o'clock tomorrow morning from Ward's chapel, the Rev. E. M. Filbert officiating. Burial will be in the local cemetery.

Says Allies Must Maintain Unity

WASHINGTON, Feb. 26 (AP)—Secretary of State Byrnes said today the allies must maintain "the same unity of action and of purpose that won the war" if they are to "root out the seeds of possible future wars."

He spoke to representatives of 11 nations gathered at the old Japanese embassy to organize the far eastern commission.

Byrnes described the agreement establishing the policy-making group as "one of the major accomplishments" of the December conference of big three foreign ministers in Moscow. The organization replaces the far eastern advisory commission.

WALKER ARRESTED

Glenn Walker, 45, Wallace, was arrested by city police last night on a drunk and disorderly conduct charge. It was his third arrest in less than two weeks on similar charges. He was septenced to 90 days in the county jail when arraigned in justice court.

Officers Battle Rioters in Negro District

COLUMBIA, Tenn. Feb. 26 (AP)—A house-to-house search for firearms in some negro and white residential sections of Columbia was ordered this afternoon after disorders last night in which ten persons were wounded and approximately 70, mostly negroes, were arrested.

At least 10 persons were wounded in the disturbances which developed from the shooting of four Columbia policemen fired upon last night in the section known as "Mink Slide" where the disorders centered.

The shooting followed an altercation yesterday afternoon in which Sheriff J. J. Underwood said William Fleming, 28-year-old radio repairman, was pushed through a plate glass window of his shop by a negro woman and her son.

Lynn Bomar, state safety commissioner, said that among the 65 persons under arrest were a number who were believed to have been the ringleaders. Twelve of the suspects were seized in a raid by highway patrolmen upon the home of a negro undertaker.

These 12, Bomar said, were charged with attempted murder. He added that in their possession were found four shotguns, two .22 rifles and a revolver. The official said also that four open bottles of whiskey were found in the place.

Mayor Eldridge Denhan said "the situation still is grave" and that he was considering a request for a declaration of martial law.

When the patrolmen made their daybreak move into Mink Slide they found about 50 negroes. Although state guardsmen had thrown a cordon around the district a number of residents were believed by Underwood to have fled through the lines during the night. Fifteen others had been picked up earlier.

State guardsmen in full field gear and carrying riot guns and bayonetted rifles patroled this normally quiet middle Tennessee town of 12,000 population during the night.

Senate Passes Housing Bill

WASHINGTON, Feb. 26. (AP)—Legislation designed to provide 200,000 temporary homes this year for families of servicemen and veterans received senate approval today.

The measure went to the house, which was engaged at the time in debating legislation intended to carry out President Truman's program for 2,700,000 new houses in the next two years.

The senate bill calls for doubling a previous 100,000-home program and adds $250,000,000 to an earlier $160,000,000 appropriation.

Senator Taft (Rep., Ohio) told the senate it was contemplated that most of the $250,000,000 would be used in tearing down unneeded army barracks and putting the materials into construction of temporary homes at universities and in cities.

This will cost more per unit, he said, than the previously-approved 100,000-home program involving chiefly movement of temporary housing from war plant and similar locations to new sites.

Other top topics in congress:

Strike control—Wally Hopkins, counsel for the United Mine Workers, told the senate labor committee the Case bill violates in spirit the constitutional amendment barring slavery.

Housing administrator Wilson Wyatt contended that a "pretty integrated" lobby was opposing vital parts of the legislation.

Wyatt, at a news conference, said that each day's delay of congressional action costs 3000 new dwellings.

Pleads Not Guilty To Delinquency Charge

Fillmore Peterson, 29, Wallace, pleaded not guilty in probate court late yesterday afternoon to a charge of contributing to the delinquency of a minor and hearing was set for 10 a. m. Friday Bond was fixed at $500.

Peterson is charged with having furnished liquor to a 14-year-old Wallace boy Saturday night. He was arrested yesterday afternoon.

Russian Military Forces Unified

MOSCOW, Feb. 26 (AP)—The Russian army, navy and air force were unified today in a single commissariat—the armed forces of the U S S R—under the command of Generalissimo Stalin.

"Under the leadership of Generalissimo Stalin, the armed forces of the U S S R will henceforth ... improve and develop to the dread of the enemies of Soviet power for the welfare of our people and the cause of peace in the entire world," the government newspaper Izvestia said in a three-column front-page editorial.

"The Soviet people were doing and will be doing everything in order that the red army does not stay behind any army of any country whatever with regard to different kinds of armament, and from all members of our armed forces we require that they ceaselessly perfect their military and political plans," Izvestia said.

Izvestia said the action of the supreme Soviet was of "enormous significance."

Pauley May Not Seek Appointment

WASHINGTON, Feb. 26 (AP)—Edwin W. Pauley said today he would "take under advisement" a suggestion that he request withdrawal of his nomination for undersecretary of navy.

The proposal was made, in the form of a question, by Senator Saltonstall (Rep., Mass.) as the senate naval committee resumed hearings on the California oil man's nomination to the navy post.

Some democratic congressmen, as well as republicans, have criticized Pauley's selection.

As he left the stand, a reporter asked Pauley how long he would need to consider this proposal. He only shrugged his shoulders.

Pauley had just demanded a public apology from Senator Tobey (Rep., N. H.), chief opponent of his nomination, for what Pauley termed an "unjustifiable smear" regarding prewar sales of his company's oil to Japan.

Pauley told the committee that Tobey had "come as close as he dares to charging me with treason" and asserted that his record ought to be cleared in hearings on his nomination for undersecretary of the navy.

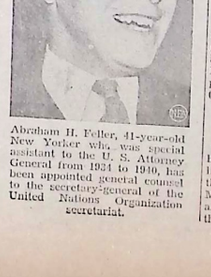
Tobey sat silently as Pauley read from a prepared statement a quotation in which the New Hampshire senator had said that the appointee was "adding a potential enemy" when he permitted his company to sell oil that later was resold to Japan.

In contrast, the witness said he had ordered his firm in June, 1938, or 42 months before the attack on Pearl Harbor, to stop any sales that might give Japan oil.

PIED PIPER FLOOD

BETHANY, Mo. (AP)—A flood which inundated the city dump gave Bethany residents a new sport. They stood at the edge of the swollen water and blazed away with .22 caliber rifles at a horde of rats which had migrated to the branches of swaying willow trees.

UNO Counsel



Abraham H. Feller, 41-year-old New Yorker who was special assistant to the U. S. Attorney General from 1934 to 1940, has been appointed general counsel to the secretary-general of the United Nations organization secretariat.

Charges Clothing Being Withheld

WASHINGTON, Feb. 26 (AP)—A spokesman for retail clothing merchants contended today that manufacturers are holding at least 700,000 men's suits from the market pending O P A price adjustments.

Louis Rothschild executive director of the National Association of Retail Clothiers and Furnishers, told a reporter "this is a conservative estimate."

He added that manufacturers will continue to hold suits from the market until O P A announces a scheduled revision of price regulations covering men's and boys' tailored clothing.

O P A officials expressed surprise at this. They recalled that a recent announcement by the agency had said the regulation would be changed to "correct inequities," but that there would be no general price increase.

One official who asked to remain anonymous said that if the report of withholding is true, "the only explanation is that some manufacturers believe the revised regulation may benefit them individually."

Krug Named to Succeed Ickes

WASHINGTON, Feb. 26 (AP)—President Truman today announced the appointment of Julius A. Krug, former war production board chairman, as secretary of interior.

He told his news conference the appointment was a personal one which he did not disclose to members of the White House inner circle until this morning.

The 38-year-old Krug, former power manager for the Tennessee Valley authority, succeeds Harold L. Ickes. Krug is now in New York as a business consultant.

Mr. Truman said he had considered a large number of names, including that of Sen. O'Mahoney (Dem., Wyo.), before making his selection.

Krug, who was born in Madison, Wis., Nov. 23, 1907, was graduated from University of Wisconsin in 1929.

His name previously had not figured in speculation about Ickes' successor. Most legislators had felt that a westerner ought to be named to the post.

Associates here said Krug was a democrat.

OWES NO TAX

WASHINGTON, Feb. 26 (AP)—The supreme court yesterday dealt this good news to a bookkeeper who embezzled $13,000 and lost most of it in Reno gambling: He doesn't have to pay $2978 income tax on that $13,000.

MINOR ACCIDENT

Cars driven by Mickey Martin, Burke, and Mrs. Nellie Bates collided last evening in Black Bear, the sheriff's office reported. The Martin car struck Mrs. Bates' car as she was turning into her garage, the report said.

Springston Dam Project Urged

COEUR D'ALENE, Feb. 26 (AP)—A prediction that construction of the proposed $36,000,000 Springston dam would give work to as many as 2500 at one time and would result in a four-year business "boom" in the area adjacent to the project was made by Hugh H. Hutcheson, assistant to the chief engineer, army corps of engineers at the district office in Seattle, in addressing a meeting of the Springston Dam Sponsoring Committee of the Inland Empire here last evening.

Hutcheson also declared that the proposed water storage at Springston would make possible the generation of 339,000 kilowatts of prime capacity at a cost of a mill per kilowatt hour—the cheapest power that could be generated by any of the from 40 to 50 proposed projects in the Columbia river basin now being studied by the district army engineers office.

Hutcheson attempted to discredit the 500 protests and 50 statements, verbal and written, which were presented at a public hearing here November 20.

White Shirts Guilty Of Inciting Mob

NEW YORK. (AP)—New Yorkers have formed lines that extended around a city block for movies, liquor, cigarets, meat, nylons, butter, or what have you. But it required the cops to handle a mob that gathered in the Times Square section when a haberdasher advertised white shirts.

The crowd not only hampered automobile traffic but interfered with such serious business as the attendance of bobby-soxers at an early movie show.

One of the last of 3500 white shirts went to a man who declared:

"Without this I don't know how I could get married tomorrow night!"

WAR TRAINING EXPENSIVE

It costs the United States government between $11,000 and $12,000 to educate and send a student through Annapolis academy, and between $19,000 and $20,000 to graduate a cadet from West Point.

DEPARTURE OF A CURMUDGEON

Things will be quieter in Washington without Harold L. Ickes. A duller. The temperamental tempestuous, self-styled and self-de curmudgeon hung up a number of records during his stay in the ital, most of them unofficial.

One of them, so far as we know, is 13 consecutive years in the same net post. Also, in his various capacities as secretary of the interhe must have set some sort of job-holding mark in our towering aucracy. Mr. Ickes had more titles than the Emperor Haile Se——and he worked at a lot of them, too. And somehow, with all he managed to write more and longer letters than almost anyone public life, of which output his letter of resignation is a fair sample.

Mr. Ickes lent a good deal of zip, if not glamour, to the somewhat spectacular job of heading the interior department. By vituperative word and vehement action he made a lot of enemies, especially und election time. But he will undoubtedly be remembered as ving done an honest and efficient job.

And, as a parting legacy, he has left us a new and literal conception a timeworn phrase. Whether his charges against Edwin W. Pauley e ever proved or disproved, many of us will think of Mr. Ickes' emoranda and senate committee testimony when, in the future, meone mentions a "well-oiled political machine."

The Whirligig

(Continued From Page One)

e are getting different responses r there. Some are working with and working hard. Others are sitng back. We are more inclined to lp those who help themselves."

He added that certain Scandinavi- neutrals had shown the greatest ergy and initiative, whereas some our former allies were looking to e U. S. for everything. The labor ader then suggested that the neuals were in a better position, psyologically and economically, to ge a comeback, in contrast to the oples whose lands were ravaged—ance, Belgium, Holland.

Finally, the delegation urged that to organize an American relief mison like the A.R.A. Herbert Hoover ded. Mr. Truman did not seem to lish that idea at all, although he y eventually embrace it.

* * *

OLITICAL The chronology of the controversy over rge-scale American relief to Euope shows why—and how—it has come involved in partisan politics. In December Senator Kenneth herry of Nebraska, republican hip, introduced a resolution proosing that a house-senate committee of 12 members make an indedent investigation of conditions in ccupied and liberated areas. Cosponsors were prominent republicans nd one progressive—Taft of Ohio, awkes of New Jersey, Capehart and Willis of Indiana, La Follette of Wisconsin.

For statesmen setting out on a life-saving mission, their preamble read like a political war cry. It declared that the "victors' policies" were producing starvation, and that the U. S. was an accessory to this crime against humanity. They deplored that in the framing of the post-war program, congress had been "ignored and by-passed."

Ensuing debate disclosed that the senators were upset over the harsh treatment accorded Germany by UNRRA, the army and the administration. They assailed Henry L. Morgenthau as one who sought the "destruction of Germany."

Senator Hawkes hurriedly produced a letter from President Truman in which he said that it was administratively impossible to secure "even many innocent people in Germany who had little to do with the nazi terror."

* * *

PRESSURE Subsequently 34 senators—22 republicans and 12 democrats, including loyal administration men—signed a presidential petition for creation of the same kind of relief mission that Mrs. Morrow's delegation asks. Republican Whip Wherry was one of the principal round robiners, although his name is you-know-what at the White House.

An anti-Truman explosion on this question was ignited on the senate floor on January 29, 1946. The republicans charged that the administration wanted to "Morgenthau" the Germans.

In view of the G.O.P.'s heavy role in these congressional barrages, the president held back and fought back, as his retorts to Mrs. Morrow indicate. But the pressure grew too strong. At 1600 Pennsylvania avenue and on Capitol Hill the mail bulged with pathetic demands that we help feed Europe, if only to prevent anarchy and a breakdown of civilization. There were more letters on this subject than on wage-price disputes and the strikes.

On February 7 the president produced his solution with what Secretary Anderson unhappily described as "Truman's dark loaf of bread." The republicans do not believe that the president has yet realized or faced the magnitude of the problem, and will continue to exploit the issue.

Looking Backward---

From the Press-Times Files

Ten Years Ago Today

It was announced the Woods & Keats building would be torn down to make room for a Standard Service station.

The price of lead was raised five cents to $4.55.

Fifteen inches of snow fell on Lookout.

Five Years Ago Today

The Board of Trade asked for a survey of the Kellogg-Pine Creek section of highway 10 with a view to setting up a four-lane W P A project.

George McKeown was named district court bailiff.

Howard Britton was elected chairman of the Muckers' ball committee in Mullan.

One Year Ago Today

R. H. Stevens sold the Pepper Box to Bessie Ricard.

The Miners defeated Kellogg, 23-17.

Mrs. Thomas Hunter, Boise, visited in the district.

CARD PARTY TONIGHT

The public is invited to attend a card party in the Moose hall at 8 o'clock tonight sponsored by the Catholic Daughters. Bridge and pinochle will be played and prizes will be awarded men and women. Lunch will be served.

Pensive Pauley

Edwin W. Pauley, President Truman's nominee for undersecretary of the Navy, appears in meditative mood as he listens to verbal storm raging over his confirmation at hearing before Senate Naval Affairs Committee.

Seeks Creation Of Planning Board

Perry A. Nelson, field representative of the state planning board, conferred in Shoshone county Saturday with John Strom ,chairman of the board of county commissioners, and other civic and county leaders in an attempt to interest the county in a planning board. He declared this is one of the few counties in the state without such a board.

Nelson pointed out some of the projects with which a planning board could be concerned are rural health and health facilities, local contact for research, surplus property for community use, problems in local taxation, general study of taxing units, survey of resources, tourist trade and development ,living facilities and public works.

Flashes Of Life

PHILADELPHIA, Feb. 26 (AP)—Mrs. Allen J. Carey's brindle bulldog Check really got her in cold water.

Check lost his footing while scampering along a Delaware river pier and fell in so the 31-year-old Mrs. Carey doffed her coat in 32-degree weather and plunged to the rescue.

Her husband grabbed a rope and hauled the dripping pair to safety.

SAN FRANCISCO, Feb. 26 (AP) A couple of army cavalrymen cornered General Joseph W. Stillwell at the USO here and got to talking about horses.

"Say, General," one asked, "did you have any horses over in the China-Burma-India theater?"

"Yes," replied the general with a sly smile, "and mighty tasty they were."

DENVER, Feb. 26 (AP)—Home hunters pouring over classified ads were rewarded with this offer, listed under unfurnished houses for rent in the Denver Post:

"For rent—One tent, 18x21, in good condition."

BRIDE-TO-BE HONORED

Miss Patsy Brown was honored at a party by the employes of Morrow's store last night. Thirty attended. Miss Brown, who has been employed at Morrow's several years, will leave this week for San Francisco to wed Jack Powers recently discharged from the service. She is the daughter of Mrs. Al Case, Wallace.

Fight Develops In G.O.P. Ranks

WASHINGTON, Feb. 26 (AP)—A fight between old line and other elements of the republican party appeared developing today over a successor to Herbert Brownell jr., as G O P national chairman .

Brownell's call for a committee meeting here April 1 to act on his resignation prompted immediate suggestions from republican legislators that a full-time, well-paid successor be chosen.

A division of opinion developed immediately over whether the new party chairman should come from the west, where republicans showed most of their strength in the 1944 election, or from the east, where many members think most of their hardest work must be done this year.

Such wheel horses of the regular organization as Walter Hallanan of West Virginia, Werner Schroeder of Illinois, Representative Carroll Reece of Tennessee and Former Chairman Harrison Spangler of Iowa are being suggested by the so-called conservative elements of the party.

From others less bound by G O P traditions, such as Senator Morse of Oregon, came the proposal that Ralph Cake of Oregon be chosen. Cake was one of Wendell L. Willkie's 1940 campaign managers. Younger committee members may be expected to throw some support to Barak T. Mattingly of Missouri.

House Minority Leader Joseph W. Martin Jr., is reported to be backing his fellow Massachusetts republican, Former Senator Henry Cabot Lodge. Lodge would satisfy some of the younger elements and would be acceptable to internationally-minded republicans.

Ezra Whitla of Coeur d'Alene, Idaho, national committee vice chairman, was another mentioned by numerous party leaders.

DIVORCE ACTIONS

Mary Louise McInturff filed suit today to divorce Don R. McInturff on grounds of mental suffering. They were married in Ogden, Utah, June 26, 1943. Rilda L. Warren was divorced from Joseph W. Warren on grounds of extreme cruelty and given custody of a son.

Says Congress Being By-Passed

WASHINGTON, Feb. 26 (AP)—While congress is being asked to approve a $3,750,000,000 loan to Britain ,Representative Dworshak (Rep.-Idaho) asserted today, the national legislature is being by-passed on many other financial deals with that same nation.

Dworshak said about $6,000,000,000 worth of lend-lease supplies is being turned over at Britain at approximately 10 cents on the dollar. Last December 4 he introduced a resolution calling for a special committee to investigate lend-lease. That resolution, he told a reporter, has been "bottled up by the democratic leadership."

Last October, Dworshak offered an amendment to recover $500,000,000 of lend-lease authorizations through the first bill to recapture war-time appropriations. The move was defeated by seven votes. The house later this week will consider the second recision bill which will recapture upwards of $1,000,000,000 in lend-lease funds.

The Export-Import bank, during the last six months of 1945, he said, authorized nearly $1,000,000,000 in loans for emergency needs of war-devastated areas in Europe, according to Bank Chairman William Martin .

"These loans, during a half-year," Dworshak said, "represent 45 per cent of the total authorized by the bank during the previous 11 years of its existence."

"Congress," he commented, "has had no opportunity to approve any of these loans made by this federal agency. It is significant that all these handouts to European nations were made prior to consideration by congress of the $3,750,000,000.

"Under such circumstances, I find it difficult to be enthusiastic about the proposed advance."

WOULD TELL BRITAIN

WASHINGTON, Feb. 26 (AP)—Senator Brewster (Rep., Me.) proposed yesterday that the United States tell Great Britain to keep American lend-lease military equipment out of current fighting in her colonies or this country will reclaim it.

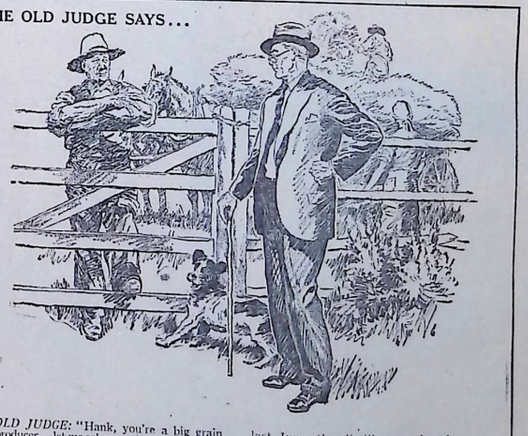
THE OLD JUDGE SAYS...



OLD JUDGE: "Hank, you're a big grain producer...let me ask you a question or two?"

HANK: "Glad to have you, Judge."

OLD JUDGE: "Do you think the grain used by distillers is wasted as some folks are saying?"

HANK: "I certainly do *Not!* As a matter of fact, it is just the opposite."

OLD JUDGE: "How do you figure that, Hank?"

HANK: "From my own experience and from reports I've read. For the year endin' last June, the distillers produced over 1,200,000,000 pounds of distillers' dried grains...the best feed supplements we can lay our hands on. They are rich in nutrients. Why...I've never had such fat dairy cows, livestock and poultry as I have since I've been usin' these dried grains."

OLD JUDGE: "How do you use them, Hank?"

HANK: "I blend them in with original grain. This balanced ration has far greater feed value than the original grain itself. I can cut down on my whole grain feeding about 20% and still get better results."

NEW YORK, Feb. 26. (AP)—A nervous stock market rallied and reacted at intervals with volume relatively heavy on the downside and lighter during comeback periods. Losses running to around six points at the worst were reduced or converted into modest plus signs in the final hour but declines near the close were well in the majority. Transfers were in the vicinity of 900,000 shares.

Swedish Prince Forfeits Crown

(NEA Telephoto)
Following typical American wedding at Riverside church, New York City, Crown Prince Carl Johan Bernadotte of Sweden and his bride, Kerstin Wijkmark, leave for brief honeymoon. Carl Johan forfeited rights to crown of Sweden by marrying commoner. Couple will be known as just plain Mr. and Mrs. Bernadotte.

Rotarians Hear Talk On Osteopathy

A talk by Dr. Norman Jacobson, Wallace osteopathic physician, on "The History of Osteopathy," was a program feature of the Wallace Rotary club's weekly luncheon this noon at the Gem. There are now 11,067 persons including 1500 women, engaged in the practice of osteopathy, Dr. Jacobson said.

MacGUFFIE RETURNS

Joe MacGuffie Jr., arrived home this morning from Key West, Fla., where he was given his discharge from the navy last week following more than two years duty. He was a motor machinist's mate third class and was stationed in Connecticut, Florida and Cuba. His wife and daughter, Charlotte, who made their home here, were with him when he was in Connecticut.

Old Fire Dog

Even freezing weather can't keep Neddo back at the firehouse when men of Rescue Co. No. 2, Boston, Mass., answer a call. Above, warm in a fireman's coat and hat, he sits atop the truck and watches intently as his masters battle a blaze.

MOTHER'S LITTLE HELPER

Yes, little sister swings an inspired broom! She's Mother's Little Helper—and what a help she is!

Mother has a Big Helper, too—a really *efficient* helper—always at her finger-tips—ready to cook and wash and clean—ready to make life easier for all the family.

This tireless helper, of course, is electric service. It does a lot of jobs at low wages. It never asks for time off.

Maybe Mother and the rest of you take this faithful servant for granted. When you flick a switch you *expect* the power to be there—instantly—always. And the fact that it *is* didn't just happen. It comes from the friendly efficiency of the folks in this company.

GM Strike Now In 100th Day

DETROIT, Feb. 28 (AP)—The General Motors strike, one of the longest and costliest in American industrial history, reached its 100th day today, having cost management and labor something in excess of $750,000,000.

To the corporation, its plants tightly closed throughout the nation, was lost approximately $500,000,000 in unfilled orders; to the long idle 175,000 GM production workers the cost in lost wages was estimated at from $113,000,000 to $128,000,000; the merchandising division of the automobile industry had lost more than $100,000,000 in sales commissions and other millions were lost by companies and workers dependent upon General Motors for parts.

Against this costly background the corporation and the CIO United Automobile Workers' union scheduled another meeting today with special Labor Mediator James F. Dewey, seeking a back-to-work formula.

The union is demanding a wage increase of 19½ cents an hour and the company has refused to go higher than 18½ cents.

Some Oppose Highway Funds

(Continued from Page One)

commission for enforcement of the cigarette tax law.

Three minor measures were introduced in the house today.

In other developments yesterday, the house rapidly passed three other measures, 56 to 0, the senate readied five bills for final action today and Governor Arnold Williams signed into law the first measure of the special session of the 28th legislature—one appropriating $25,000 for expenses of the session.

The democrat-dominated house revenue and taxation committee introduced the half million dollar measure to provide salary increases for common school teachers for the 1946-47 school year. The appropriation would be made directly from the general fund.

Introduction of this measure was immediately interpreted by some observers as a move to balance politically the republican sponsored teachers pension measure introduced earlier in the week. The sponsoring committee is generally regarded as a funnel for introduction of Governor Arnold Williams' administration measures.

The first hot debate of the special session of the 28th legislature came on a vote on a $500 deficiency appropriation measure for the vacant lieutenant governor's office. The measure passed 30 to 29 with one republican, Representative H. Grant Gardner (Payette), voting with the democrats for passage.

Gardner explained to newsmen he had voted with the minority party because he didn't want to see legislative "harmony disrupted over a lousy $500," pointing out that the house previously had passed three bills unanimously, 56 to 0, and that the state general fund contains a $4,000,000 surplus.

Representative T. C. Waddoups (Rep., Butte), chairman of the appropriations committee, led the attack on the measure, asserting there was "no necessity" for it because of a surplus of $571 he said was in the lieutenant governor's fund at present. "If more is needed the next regular session can provide it."

Representative Arthur Porter (Dem., Madison) explained the appropriation was necessary because no provision was made for increased pay for the lieutenant governor when he serves as governor. The governor's pay was recently increased from $13 to about $20.70 a day.

Democratic Floor Leader A. R. McCabe (Benewah) told the majority party during the debate "if you're straining, don't exercise yourselves over this one—there are going to be some larger ones coming."

Representative B. Glavin (Rep., Twin Falls) replied "give us a chance to have the lieutenant governorship and we'll get along without the money," and Representative Ed Gaffney (Rep., Clearwater) said "we're not money-grabbers. A republican would be glad to fill the office without remuneration."

The house passed three bills unanimously in addition to the lieutenant governor's deficiency bill. The measures, which now go to the senate for action, would:

Revise state laws to include women war veterans under indigent burial benefits provided by boards of county commissioners.

Reduce the definition of a male minor from 21 years to 18 years, primarily designed to permit veterans less than 21 years of age to enter into legal contracts.

Amend a law creating the state board of publicity to include a limitation that the board of four may not have more than two members affiliated with the same political party.

The senate passed on second reading yesterday and prepared for final action today five bills which would:

Appropriate $76,579 to the state tax commission for operational expenses for the rest of the biennium and permit enforcement of the cigarette tax.

Appropriate $8025 to the bureau of aeronautics to employ personnel to inspect airfield sites.

Appropriate $9000 to district courts to pay raises in district judges and reporters as provided by the last legislature.

Amend a state law to permit war service attorneys to defend persons at insanity hearings.

Apportion state and county school funds to schools closed to provide agricultural labor during the school year 1945-46.

FINN HOMAGE TO LENIN

HELSINKI, (AP)—A Lenin museum has been opened in Tampere, Finland, at the place where Lenin and Stalin met for the first time in December, 1905, at a Russian social democratic party meeting which was held there in secret. The city of Tampere financed the museum and the state will continue to support it with an annual fund of 300,000 Finnmarks.

The Washington monument, 555 feet high, is the tallest masonry structure in the world.

Housing Shortage Blamed for Strange Family

(NEA Telephoto)

Housing shortage was blamed by Michael Prisco (extreme right) for the necessity of bringing his two wives and four children into one small apartment at Pittsburg, Calif. The wives, Gertrude, 21 (left), holds her 11-day-old daughter, and Anna, 46, the first Mrs. Prisco, holds one of two youngsters fathered by the ex-soldier. Anna is also mother of a 15-year-old daughter by a former marriage. Prisco explained to authorities that while he was in the Army his first wife claimed she had obtained a divorce. After he had married Gertrude in Missouri, Anna disclosed she had no divorce.

IMPROVES SURFACE

Pure sugar is blown on the inner surface of ingot molds to improve the surface of the steel. The sugar prevents splashed metal from solidifying on the walls of the mold.

DAMM IMPROVED

Gus Damm, Wallace, who is in Sacred Heart hospital in Spokane, is reported greatly improved, according to friends who visited him.

17 Japs Sentenced For Deaths Of Airmen

SHANGHAI, Feb. 28. (AP)—Seventeen Japanese military men were sentenced today—five to the gallows, 12 to prison—for the strangulation and cremation of three American B-29 flyers at Hankow in December, 1944. An 18th defendant, the lone civilian to be tried, was acquitted.

American defense counsel said the condemned men probably would ask Lieutenant General Albert C. Wedemeyer, theater commander and reviewing authority, for clemency—but that no higher appeal was planned.

Four other Japanese, former officers, are awaiting trail here March 11 on charges of complicity in the execution of three Doolittle raiders whose plane crashed in China after their surprise blow at Tokyo in April, 1942.

SEEKS ANNULMENT

Ray S. Wilson and Alda L. Wilson filed suit in district court today to have the marriage of their daughter, Patricia Ra Wilson, to Rezin L. Hawkins in Superior December 24, 1945, annulled. They allege that their daughter was only 17 years of age at the time and did not have their consent to the marriage.

LICENSED TO WED

Ernest Smith and Ioane MacKey, both of Kellogg, obtained a marriage license yesterday afternoon.

'Q' Fever Strikes Laboratory Workers

WASHINGTON, Feb. 28 (AP)—An outbreak of "Q" fever, somewhat similar to virus pneumonia, has stricken 22 workers at the national Institute of Health at Bethesda, Md.

All are employed in a building housing a laboratory in which study recently was resumed on the disease, named "Q" because it first was identified among slaughter house workers in Queensland, Australia. The disease is caused by organisms known as rickettsia.

Non-Partisan Group Not Third Party

BOISE, Feb. 28. (AP)—Thomas B. Wood (Dem., Kootenai) said today that a recently organized non-partisan league is "not a third political party."

"We will endorse those candidates, regardless of party, that stand for the issues the non-partisan league has endorsed," Wood said.

France Relinquishes Rights In China

CHUNGKING, Feb. 28. (AP)—France officially relinquished extraterritorial rights in China by treaty today. In return, China agreed to withdraw her troops from northern French Indo-China.

Eight Cage Teams Begin Battle Today For Panhandle Tourney Championship

Today's Schedule

2 p. m.—Priest River vs. St. Maries.

3:30 p. m.—Wallace vs. Mullan.

7 p. m.—Coeur d'Alene vs. Bonners Ferry.

8:30 p. m.—Kellogg vs. Sandpoint.

KELLOGG, Feb. 28—The Kellogg high school gymnasium was emblazoned with the pennants and school colors of eight Panhandle high schools this afternoon as the first pair of eight teams squared off for the 27th annual Panhandle class A basketball tournament.

Tournament officials had preparations ready to handle capacity crowds all three days of the 12-game tournament as prospects of record crowds appeared.

Favored to win the tournament is Coeur d'Alene but the history of the cage classic is one of upsets, and anything can happen. Coeur d'Alene went through the conference season with only one defeat, that suffered at the hands of Priest River. Priest River is paired in the bracket opposite the Vikings and must get past St. Maries this afternoon—and the Lumberjacks already hold one victory over the Spartans.

Kellogg, the defending champion, is paired in the same bracket with Coeur d'Alene, and will meet the Vikings tomorrow night provided the Wildcats get past Sandpoint—which defeated them once this season—tonight and if Coeur d'Alene defeats Bonners Ferry.

Coeur d'Alene was runnerup last year, Bonners Ferry was third, Wallace fourth; Priest River fifth; Sandpoint sixth; St. Maries seventh and Mullan eighth.

Because of the pairings, one tradition will be broken.

This is the fourth consecutive year the tournament has been held in Kellogg. In each of the three previous years Kellogg and Coeur d'Alene have met in the championship finals. Kellogg won last year, 36-33; Coeur d'Alene won in 1944, 35-21, and in 1943, 36-28.

However, the Vikings and Wildcats are in the same bracket this year and cannot possibly meet in the championship finals.

Tournament officials announced today the following trophies will be awarded Saturday night after the championship finals: Winner's trophy, donated by Bunker Hill & Sullivan; individual gold basketball to members of the winning team, donated by the Light House; runnerup trophy, donated by Kellogg Electric; consolation award, contributed by Kellogg Junior Chamber of Commerce.

Officials will be Bob Brumblay, Cheney, and John Schnell, Spokane, both well known to district sports fans.

Following are the winners in past years:

1945	Kellogg.
1944	Coeur d'Alene.
1943	Coeur d'Alene.
1942	Priest River.
1941	St. Maries.
1940	Coeur d'Alene.
1939	Bonners Ferry.
1938	Sandpoint.
1937	Wallace.
1936	Wallace.
1935	Wallace.
1934	Bonners Ferry.
1933	Wallace.
1932	Coeur d'Alene.
1931	Coeur d'Alene.
1930	Coeur d'Alene.
1929	Coeur d'Alene.
1928	Coeur d'Alene.
1927	Sandpoint.
1926	Sandpoint.
1925	Kellogg.
1924	Kellogg.
1923	Coeur d'Alene.
1922	Coeur d'Alene.
1921	Coeur d'Alene.
1920	Wallace.

San Jose To Meet Vandals In Moscow

MOSCOW, Feb. 28. (AP)—San Jose Spartans will take to the turf on Neale stadium here next fall against the University of Idaho Vandals, Gale L. Mix, graduate manager, announced this morning.

Meeting the Vandals October 19, the game with the Spartans will be the third game at Moscow slated for Idaho. Idaho previously had signed home games with Oregon and Portland university.

DIVIDE REPARATIONS

BRUSSELS, Feb. 28. (AP)—Delegates of 18 nations began today to divide the reparations from Germany, a task which is expected to require two or three years.

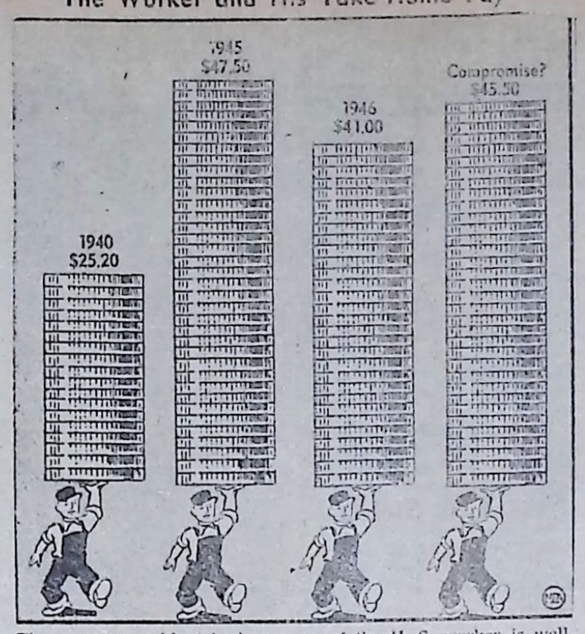
The Worker and His Take-Home Pay



The average weekly take-home pay of the U. S. worker is well above his 1940 earnings, but stands to go still higher if strike compromises result in proposed increases. Increases like President Truman's recommended 18½ cents an hour for steel workers would boost average for 40-hour week to $45.50. Wartime pay of $47.50 was for 45-hour week.

Miner Mittmen Win Fight Card

Wallace high school boxers badly outclassed St. Maries high school mittmen here last night to win a 4-1 decision.

One bout ended in a technical knockout, Thornton, 160, Wallace, smothered Berry, 158, under an avalanche of gloves in the second round and Referee Pete Higgins stopped the fight. Berry was helpless on the ropes. In the first round they slugged toe to toe, with Thornton getting the edge. The St. Maries coach helped enliven this battle when he jumped into the ring midway in the second round with a protest that the round should have ended. There was still enough time left, according to the timers, for Thornton to get his T.K.O.

Leonard Walker, 138, Wallace, found Rainbow, 142, a good target for the first two rounds and a punching bag in the third. Walker gave a nice display of infighting and had Rainbow wide open all the way through the last round. The judges agreed in giving him every round for 90 points. Rainbow got 76.

Norman Walker, 142, kept his long string of victories intact, but Carmen, 148, gave him the toughest battle he's had in a long time.

Two judges voted the battle, a lively slugfest all the way, a draw, and the third judge gave Walker the edge by three points, 30-27. One judge called all three rounds a draw and another gave Walker the second, Carmen the third and called the first even. The judge whose nod gave Walker the decision called the first round even and gave Walker the two others, the second 10-8 and the third 10-9.

Beck, 143, won the opening bout for Wallace by decisioning Baltz, 148. Beck was the aggressor and carried the fight to Baltz all the way. Judges gave Beck 36 points and Baltz 79, although one judge called the fight a draw.

Allen, 126, won the only fight for St. Maries, getting a close decision over Faber, 130. Faber won the first round but tired quickly and Allen landed some nice blows in the last two cantos. Judges gave Allen 37 points and Faber 35, with one judge calling the bout a draw.

Don Hamen and Roy Faler, and Bud Arizona and Bill Thomas, fought three-round preliminaries and Jack Foster and Tom Stephenson put on a wrestling match that gave fans a good show.

Judges were Mike Waggoner, Smelterville; Don Miller, Kellogg, and Bill Dunphy, Burke.

Gale Bishop Signs With Boston Braves

BELLINGHAM, Wash., Feb. 28 (AP)—Gale Bishop, high-scoring Washington State college basketball forward, told newsmen yesterday he had agreed to sign with the Boston Braves of the National league.

His announcement, made from his father's farm at Sumas, north of here definitely removed him from the W. S. C. lineup for Saturday's game with the University of Idaho at Moscow and also foreclosed his prospects of leading northern division Pacific Coast conference scorers. He had 185 points in 10 games.

Bishop said he had been studying offers from the Brooklyn Dodgers, New York Yankees, Detroit Tigers and Philadelphia Phillies when Boston "came in with an offer that I couldn't turn down."

Bishop attracted attention of baseball scouts when he played second base with the Fort Lewis Warriors while in the army. He also led the nation in scoring last year while playing for an army basketball team.

MOSCOW IS WINNER

LEWISTON, Feb. 28 (AP)—Moscow high school beat Lewiston, 39-31, here last night in the opening game of the class A basketball tournament. However, Lewiston has a chance for comeback because of double elimination tournament.

REQUEST REJECTED

BOISE, Feb. 28 (AP)—A state board of education request for $174,185 for landscaping improvements at the University of Idaho was rejected by Governor Arnold Williams in the appropriation budget he placed before the special session of the legislature.

IN RETROSPECT

The tugboat strike that tied New York City in knots for 10 days was replete with object lessons in what not to do and in how not to do it.

A mere 3500 men jeopardized the health and safety of more than seven million men, women and children. The victims probably came closer to numbering 10 millions, in view of the thickly populated suburban area that gets vital supplies through New York harbor.

That statement is not intended to indicate any opinion as to the merits of the wage controversy that underlay the strike. The published pay scale, to anybody who has seen New York harbor tugs at work, would warn against casual judgment on the merits.

Nevertheless, 3500 tugboatmen—or, if you prefer, less than 100 tugboat operators—should never have been permitted to keep food and fuel from seven or 10 million persons in the north temperate zone in the year's coldest month.

The strike was ended by agreement to arbitrate—eventually. Why couldn't it have been prevented in the beginning by agreement to arbitrate?

It was important enough in the eyes of Washington to warrant seizure of the tugs. But the men wouldn't work for Uncle Sam, either. Is there a right to strike against the government? Is there any way to find out whether such a right exists? Wasn't it Washington's duty to ascertain whether there is such a right? Hasn't that vital issue been compromised by default?

If seizure was warranted, then operation by any available means was required. The navy is full of men capable of operating the tugs. Many were held from discharge, and sat in Philadelphia waiting for the call that never came. How cold must seven or 10 million persons be, before steps are taken to give them fuel?

The situation became so grave that New York's mayor declared a state of disaster emergency and closed all but a few specific essential businesses. After 18 hours he discovered either that things never had been as bad as he thought, or that they had improved, and he opened up everything—except the schools.

Was he impetuous, or panicky? Was he misinformed? Was he uninformed? Was liaison between federal and local authorities scandalously faulty?

Few would be disposed to quibble about the mayor's right to save critically scarce coal ,or to protect health of workers against heartless or thoughtless bosses by ordering them to stay away from underheated buildings. But why, if a restaurant was left open to serve food, could it not sell liquor? Why could a business or professional man not go to his office to get papers on which to work at home?

Apparently the tugboat strike showed just how defenseless, how unprepared our big cities really are—how little thought has been given to the meeting of major emergencies. We can be happy that we did not discover this under war invasion conditions. We might do a little planning against a repetition of what happened to New York, and to Philadelphia in the transit strike, and what threatened Pittsburgh in the power plant controversy.

Looking Backward---

From the Press-Times Files

Hopeful Papa

The Whirligig

(Continued From Page One)

or senator from that area who fills the bill.

Senator David I. Walsh of Massachusetts is too old, and, despite his long public service, he is not well-known throughout the country. Senator Theodore F. Green of Rhode Island is in his 70s, and his colleague Senator Peter Goelet Gerry, is regarded as a reactionary.

* * *

MEAD Senator Brien McMahon of Connecticut has been mentioned, but he is still in his political teens. His chairmanship of the committee investigating the atom's potentialities has brought him a few headlines, but the crowds still flock to the Pauley and Pearl Harbor hearings. Furthermore, it is doubtful whether the man from the Nutmeg state would accept a vice presidential offer.

Best bet may be Senator "Jim" Mead of New York, especially if he runs for the governorship next fall and defeats Thomas E. Dewey. New York National Committeeman Edward F. Flynn recently discussed metropolitan politics with the president, and it is understood that the Mead condidacy, with his possible nomination for vice president in 1948, was the principal topic of conversation.

As a liberal and as present chairman of the "Truman committee," the former locomotive engineer from Buffalo may be the answer to Hannegan's plight and prayer.

* * *

ADVICE Every recent political happening and headache underwrites the warnings his friends have given President Truman and which a few more daring cronies dared to vouchsafe Franklin D. Roosevelt when he occupied the White House.

"Jim" Farley walked the plank because he begged F. D. R. to stay away from party mugwumps like Harold L. Ickes, F. F. LaGuardia and the Murray-Hillman crowd. But the present breakup of the so-called "Roosevelt democratic party" suggests that the old New York master knew what he was talking about.

National Chairman Hannegan is now giving Mr. Truman the same advice, with the Ickes resignation, the Murray-Thomas attack, Henry A. Wallace's strange silence and behavior and the lukewarmness of Capitol Hill liberals as his arguments. How the chief executive responds will be seen when he names the new secretary of the interior.

* * *

BREAKING The incongruous elements which the personable and politically astute Mr. Roosevelt fashioned into an irresistible machine are obviously breaking into their ancient atoms and molecules.

Progressives, as represented by the Ickesees, the La Folletes and the Wallaces, are breaking away. Labor is on the warpath. Certain racial groups, especially the colored people and central European blocs, have become restless over the defeat of the FEPC bill, the Palestine problem and the feeding of the German-Slav-Jewish populations overseas.

When it is realized that President Roosevelt won in 1944 by a comparatively narrow margin, and that his plurality probably came from the support of these groups, it begins to dawn on Hannegan that the so-called "Roosevelt democratic party" may suffer the fate of the one-hoss shay —only sooner!—Copyright McClure Newspaper Syndicate.

AIDS MOTHER ATTENDANCE

The nursery established in the church hall of the Croydon Methodist Church, England, provides toys and candles free so that mothers may attend the services.

New Books At The Public Library

Following is a list of new books and books of current interest now available at the Wallace public library.

Rentals

"Written on the Wind," by Robert Wilder. Story of a great tobacco family in the Piedmont section of North Carolina. It revolves around the life of a spoiled and highly neurotic descendant who marries a girl on her way to stardom on Broadway.

"Miss Bunting," by Angela Thirkell. Miss Bunting is a governess with the manners and social wisdom of a queen, and around her are any number of delightful people.

"The Fifth Man," by Manning Coles. A spy story of World war II concerning Tommy Hambledon and the work of British Intelligence. One of the best.

General Circulation

"Mathematics for the Millions," by Lancelot Hogben . This is the book that takes the mystery out of mathematics. The author is not concerned with classroom exercise, but with practical use.

"Bernard Baruch, Park Bench Statesman," by Carter Field. More than a biography, it is a story of critical periods in the last 30 years of the nation's history.

"The Patience of Maigret," by Georges Simenon. This volume contains two full length stories in which we meet Inspector Maigret, who is taking his rightful place with other great detectives of fiction.

RHEUMATISM and ARTHRITIS

I suffered for years and am so thankful that I found relief from this terrible affliction that I will gladly answer anyone writing me for information. Mrs. Anna Pautz, P.O. Box 825, Vancouver, Wash.

'About Face' Is a Big Job

AP Newsfeatures

HONOLULU.—Colonel William C. Saffarrans, "Wild Bill" of 1924 Georgetown football fame, founder of the army's ranger school in Tennessee, and teacher of combat tactics to more than 300,000 Pacific soldiers and sailors, is up to his full, weather-beaten jowls in the task of reversing the flow of trained American fighting men towards Japan.

With the war's end, Colonel Saffarrans found that his combat training schools on Oahu, Saipan, New Caledonia and Espiritu Santo were passe. Lieutenant General Robert C. Richardson Jr., commanding army forces in the Middle Pacific, ordered: "Get them home."

Today, 45-year-old, New Yorkborn Saffarrans is doing just that. As commandant of the Middle Pacific personnel center on the island of Oahu, Territory of Hawaii, he directed the processing and return to the mainland of more than 120,000 army men and women in the three months' period ended January 7.

Every day he meets some former pupil bound for the mainland. One soldier said: "If I had not been through your first school on my way to Okinawa, I doubt that I could have made this one—on my way home."

Saffarrans' combat coaching won him the Legion of Merit.

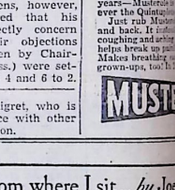
Patterson Refused Pauley's Request

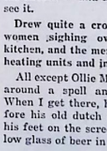
WASHINGTON, Feb. 28 (AP)—William P. Patterson, United Air Lines president, testified yesterday that Edwin W. Pauley pressed him to take an action which Patterson deemed an "absolute violation of a law."

It was to contribute $35,000 to the 1944 democratic campaign, and in calling it illegal Patterson obviously had in mind the law prohibiting political contributions by corporations.

The senate naval committee considering Pauley's nomination for undersecretary of the navy heard that the original solicitation was made to Russell F. Ahrens, vice president of the air line, by George Killion, who succeeded Pauley as democratic treasurer.

Republicans were blocked in efforts to examine Ahrens, however, when democrats objected that his testimony did not directly concern Pauley and made their objections stick. Two votes taken by Chairman Walsh (Dem., Mass.) were settled on party lines, 6 to 4 and 6 to 2.





From where I sit ... by Joe

Ollie Mapes and The Streamlined H

The other day a construction firm set up an exhibit in the courthouse square. They built a new "house of the future"—and invited folks to see it.

Drew quite a crowd—with the women sighing over the shiny kitchen, and the men admiring the heating units and insulation.

All except Ollie Mapes. He looks around a spell and goes home. When I get there, he's sitting before his old dutch fireplace, with his feet on the screen, and a mellow glass of beer in hand.

"You know," ... takes a heap of ... home."

Looking around ... means. A room ... ories of a life well ... friendly habits of ... from a blazing ... to a mellow glass ... friends. From what ... things do more to ... than modern streamli...

Darker Flour Due Tomorrow

WASHINGTON, Feb. 28. (AP)—American millers must begin tomorrow the manufacture of a darker flour under a government order designed to help share short supplies of wheat with the hungry abroad.

The order requires that 80 per cent of the wheat be converted into flour. The present rate of extraction averages about 72 per cent.

President Truman, in outling a food conservation program early this month, estimated the new flour would cut American consumption of wheat 25,000,000 bushels by July 1.

Wheat thus saved will be used to help meet this country's promise to ship 225,000,000 bushels of the grain to needy areas abroad during the first half of the year.

It may be several weeks before the new flour reaches grocery stores and bakeries. Supplies of the white flour accumulated before hand will last bakers and distributors several weeks.

The order limits distributors to a 30-day supply of flour, both the old and the new. Inventories of bakers and other manufacturers likewise are limited to 30 days requirements.

The order also limits inventories of wheat held by millers and mixed feed manufacturers to requirements for 45 days.

No limitations are placed on inventories of farmers, or upon their use of wheat.

To Explain Plan For Use For Farragut

COEUR D'ALENE, Feb. 28 (AP)—Idaho's legislators will hear at first hand details of a proposal to convert the $90,000,000 Farragut naval center into a "temporary overflow university for veterans."

Commodore Frank H. Kelly, commandant of the center, will head a delegation leaving Coeur d'Alene by plane tomorrow for Boise, to explain the plan to the special session of the 28th legislature. Members of the state board of education will also be informed officially of the plan.

Accompanying him will be E. G. Younger, secretary of the Coeur d'Alene Chamber of Commerce; G. O. Kildow, president of the North Idaho Junior college, and Judge W. F. McNaughton, member of the state board of education.

Representative Jesse Vetter (Dem., Kootenai) advised friends here today he hopes to arrange a joint session of the house and senate for Kelly's appearance.

The proposal would establish an "overflow university" at Farragut for veterans unable to find accommodations at other schools, as soon as the center is released by the navy. The plan was suggested by a civilian worker at Farragut, and has been indorsed by the Coeur d'Alene chamber and many other groups after being first made public by Kelly.

Canada was discovered in 1497 by the English navigator John Cabot.

TNT Shakes Up King's Palace

Everyone in Buckingham Palace, London, was warned to keep away from the part of the building facing [illegible] James' park as a bomb disposal squad prepared to get rid of a German bomb that had been buried in the park since war days. The bomb's own explosive was first neutralized, then the missile was blown up, as pictured above, with a heavy charge of TNT. The explosion rattled the palace windows, but caused no damage.

Raps 'Brass'

Brig.-Gen. Herbert H. Holdridge, above, a West Point classmate of Gen. Mark Clark, added fuel to the GI fire of criticism against Army "brass" by telling Congress that the Army is "undemocratic and un-American and a feudalistic organization carried over into the atom age."

Republicans Seek Ban On Conscription

WASHINGTON, Feb. 28 (AP)—Over President Truman's opposition, house republicans opened a drive yesterday to sidetrack universal military training in favor of an effort to bring about an international ban on conscription.

Their floor leader, Representative Martin of Massachusetts, proposed to the house military committee that "while we are now obliged to keep a six-shooter in one hand, we extend the olive branch of peace with the other."

Martin was the first witness as the committee started hearings on his proposal that the United States take the lead in seeking to out-law peacetime conscription everywhere and in obtaining agreement among the nations for "the eventual reduction of armaments."

Witnesses scheduled later include Secretary of State Byrnes.

MOVIES TO TOKYO

TOKYO, Feb. 28 (AP)—Japanese audiences saw American movies today for the first time in more than years. The civil information and education section of allied headquarters said it was encouraging films to provide the Japanese with another means of "refamiliarizing themselves with life and thinking of other peoples."

CROWDED CONDITION

The human scalp has approximately 1000 hairs to the square inch. The average head contains 110,000 hairs. Women have a higher average than men, while redheads average only 90,000.

Declares Americans Running Berlin

BERLIN, Germany, Feb. 28 (AP)—Colonel Frank L. Howley, director of the American military government in the Berlin district, declared last night that "we Americans are running Berlin."

Speaking at a reception marking six months of American participation in the four-power administration of the city, Howley said: "We said we'd be running Berlin and we are now doing it. We are the strongest element here."

Later, in reply to questions by newsmen, Howley said he felt the American influence was the strongest in the four-power kommandantur which rules Berlin.

Atom Bomb Experts To Be Police Force

ROSWELL, N. M., Feb. 28. (AP)—The 58th bombardment wing, atom bombing specialists, will have a top position in this nation's contribution to the projected United Nations organization police force.

The AAF wing, veteran of aerial bombardment of Japan, now is in the process of reorganizing into a fully equipped strategic force ready to strike anywhere in the world—with atom bombs if the job requires.

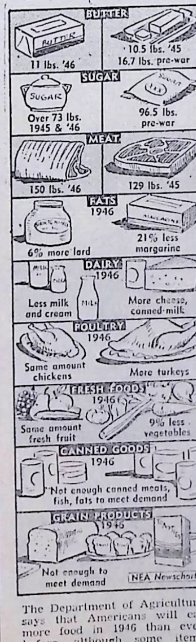
At the moment, the atom bombing unit of the wing is the 509th composite group based at this New Mexico desert airfield which also is advanced headquarters for the wing. When at its eventual full strength the wing will have an authorized strength of 1600 men and officers and 225 heavy bombers, such as the B-29s now used.

HOME SAVER

BRIDGEPORT, Conn. (AP)—Now, thanks to thoughtful General Electric engineers, a husband and wife can share a double bed without quarreling over warmth of the bedclothes. GE has developed a two-control automatic electric blanket. Each half can be kept at a different temperature.

By act of congress, the government moved into Washington on the first Monday in December, 1800.

Food Story, 1946



The Department of Agriculture says that Americans will eat more food in 1946 than ever before, although some items will be "substantially" below demand. Newschart above shows how 1946 supplies of some food compare with 1945 and pre-war years.

Flashes Of Life

LOS ANGELES, Feb. 28. (AP)—Mrs. Thelma Neiditch was granted a divorce from Bernard Neiditch.

She testified her husband told her he could support either her or his race horse and that he was more interested in the horse.

WINFIELD, Kans., Feb. 28. (AP)—Cliff-dwelling, 1946 version, will appear soon in Winfield.

Despairing of finding a home, Gene Manny, a returned war veteran, plans to excavate a hillside for one of sorts.

When materials become available, for a new home, he will convert the cliff house into a garage.

WAUKESHA, Wis., Feb. 28. (AP)—T. R. Uthus, superintendent of the Wisconsin Industrial School for Boys, says he received a letter from a young Hawaiian, stating:

"As I am considering attending your school this fall term, will you please send me a school catalog and other pertinent material on your school curriculum and activities?"

The industrial school is for delinquent boys. Uthus said the applicant probably had heard there was no tuition.

The cornerstone of the Capitol was laid by George Washington, September 18, 1793.

Eccles' Statement Draws Challenge

WASHINGTON, Feb. 28 (AP)—President Truman's economic high command challenged yesterday a statement by Marriner S. Eccles, federal reserve chairman, that living costs might jump 10 per cent under the president's new wage-price policy.

Chester Bowles, economic stabilizer, and John W. Snyder, reconversion director, testified before house committees that they expect no such increase in the costs of food, clothing and shelter.

Bowles told the civil service committee:

"I think the estimate of Mr. Eccles is rather high. Certainly I hope it will be no more than half that—about 5 per cent."
